

TH300

Electronic Thermometer

Remote temperature measurements require a versatile thermometer with a remote probe that can be used in hard-to-reach spots. The meter must also be easily readable at an angle.

TH300 is equipped with a stainless steel general use probe and a 1 meter cable to make remote reading a simple task.

Environmentally Friendly

TH 300 does not contain any Mercury or leaded glass. These materials are typical of glass thermometers and are hazardous to our environment and your health.

TH300 will not break like glass thermometer, and its extended range will replace 2 or more standard glass thermometers.

TH300 provides a rapid response time, and a battery that lasts up to 1 year.

BATTERY REPLACEMENT:

When the TH 300 fades, pull out the rear cover and the 1.4V battery, paying attention to the polarity. Batteries should only be replaced in a safe area using the battery type specified in this instruction manual.

RECOMMENDATIONS FOR USERS:

Before using this product, make sure that it is entirely suitable for the environment in which it is used. Operation of this instrument in residential areas could cause interference to radio and TV equipment. Any variation introduced by the user to the supplied equipment may degrade the instrument EMC performance. To avoid electrical shock, do not use this instrument when voltages at the measurement surface exceed 24VAC or 60 VDC. To avoid damage or burns, do not perform any measurement in microwave ovens.
